

GUOCERA

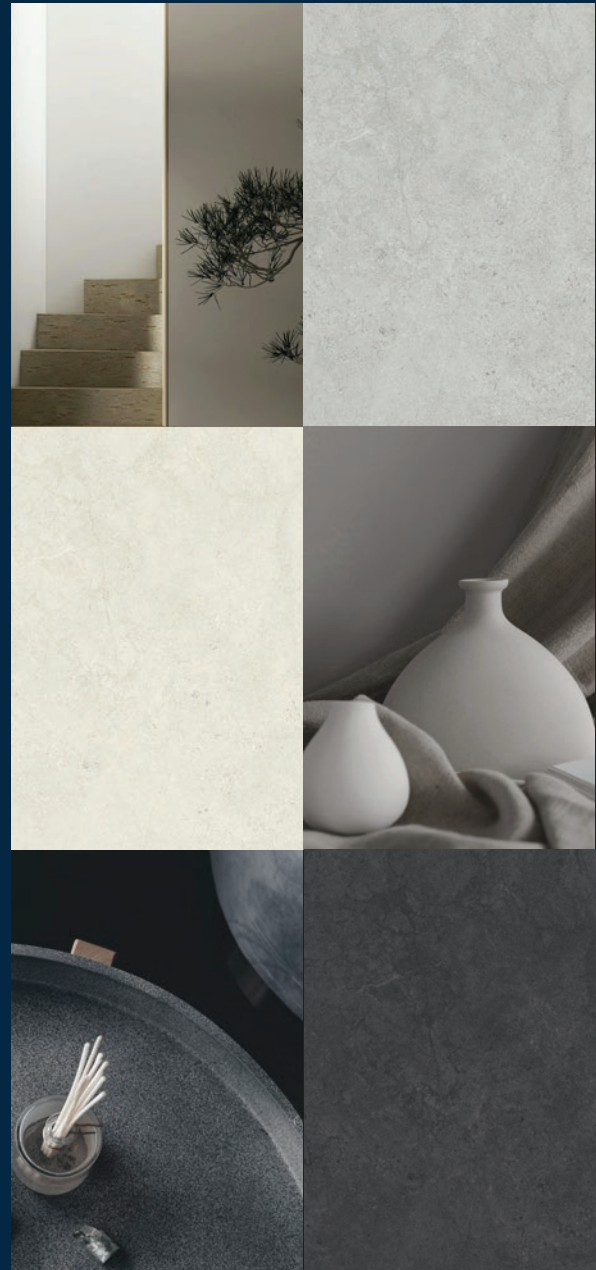

ITALIAN  
DESIGNER  
SERIES

# CASTELLO

Castello retains the timeless beauty of Levante limestone & travertine, elegantly infused these two materials into a new collection enriched with historic classic and Mediterranean elements suitable for all ambiances.

Delicate colors with overall uniform pattern with slight tonal variation and occasional pigment inclusions, this calibrated fusion is an astonishing design versatile and interesting for any interior and exterior design application.

Modern, soft and luxurious, it keeps the beauty of the original natural stone with a touch of contemporary charm.

# PIETRO

Pietro is inspired from Italian slate fused with French limestone in an absolutely natural way.

The gentle and natural movements of the split veins of slate gives the stone a three-dimensional characteristic blended with the base characterised by slightly sandy inclusions of Burgundy limestone.

Pietro demonstrated an elegance expression of these 2 excellences in the world of stone. Resulted a natural masterpiece that matches well in modern and traditional settings.
