 **GUOCERA**
LET'S REIMAGINE

A member of the Hong Leong Group

ABOUT US MILESTONE

GUOCERA : LET'S REIMAGINE

With over 50 years of manufacturing experience, GUOCERA, a member of Hong Leong Group has proudly become the tile brand of choice in over 50 countries, from Asia-Pacific and Middle East to Europe and America.

Whether it's residential, commercial space, or public infrastructure, you can find Guocera inspired spaces the world over. Guocera helps to create inspirational environments in which people can live, work and play.

It is our aspiration to become and remain a global player through continuous value creation and innovation for our business partners and consumers.

COMMITMENT TO GREEN

We are a green certified company, where our innovation and expertise combined producing trendsetting tiles in minimum-waste manufacturing process.

NEW PRODUCT DEVELOPMENT

We are more than just manufacturing. Our ethos includes understanding our consumer preference and design trend. We help people express themselves and reimagine spaces of wellbeing that bring joy.

QUALITY ASSURANCE

Comprehensive analysis and testing of raw materials are conducted according to stringent measures, resulting in unmistakable quality and reliability that are the hallmarks of Guocera tiles.

DIGITAL TRANSFORMATION

Embrace digital technology in production and every aspect of marketing to enhance consumer buying experience and needs.

OPERATIONS & MARKET EXPANSION

- 1970**
1st Plant Mosaic factory in Kapar, Klang under ATW-Associated Tile Works
- 1978**
1st export sales to Singapore
- 1979**
2nd Plant VHT factory in Meru, Klang under ACW - Associated Ceramic Works
- 1988**
3rd Plant Ceramic floor tile under Kluang, Johor under FEI - Far Eastern Industries
- 1995**
Established new company in Singapore known as Guocera Marketing Singapore Pte. Ltd.
- 2005**
Reached milestone sold to 50 countries around the world
- 2009**
Set-up Porcelain Plant in Kluang, Johor

QUALITY CENTRIC

- 1993**
Established ceramic research lab accredited by ISO/IEC, 1st independent lab in ASEAN
- 1995**
All factories accredited with ISO 9001
- 2008**
Awarded ISO 14001 Environmental Management System
- 2012**
Awarded SIRIM ECO-Label for tiles
- 2012**
Awarded OHSAS 18001 for Occupational Health & Safety Management System
- 2014**
Awarded Singapore Green Label for Ceramic

BRAND

- 1993**
Birth of brand "Ceramiche Guocera"

- 1996**
Introduced new tagline "The One Stop Tile Centre"

- 2000**
Launched our new tagline "Life's Inspirations"

- 2007**
1st Pilot Plant in Malaysia for new product development
- 2013**
Logo transformed to reflect new era

- 2015**
Launched new brand target mass market

- 2018**
Launched new brand for Architectural Slabs

- 2019**
Rebrand : To Be Inspiring Lifestyle Shaper

- 2020**
Launched Premium Lifestyle Collection

- 2022**
Launched Inspired Lifestyle Collection

AWARD

- 2007**
Awarded the industry Excellence Award by Ministry of International Trade Industry Malaysia
- 2017**
Awarded 'The BrandLaureate Most Valuable Brand Awards' 2016-2017 for brand excellence by The Asia Pacific Brands Foundation (APBF)

- 2017**
Voted the Malaysia's Gold in the highly competitive category of Floor & Wall Tiles as judged by Malaysians in the 2017 Reader's Digest Malaysia Trusted Brands

BRAND ARCHITECTURE

BRAND VISION

At Guocera, we believe that wall and floor coverings hold the key to transform spaces. That's the worthy work that we do as 'IMAGINEERS', helping people reimagine the possibilities of their lifestyle spaces.

VERTICAS

Contemporary vertical architectural slab for modern interior decoration. The large-format porcelain bring elegance to any space.

GUOCERA

Collections of porcelain and technical porcelain which are carried in four interior themes aims to cater various unique consumers preferences & lifestyle.

SOLARE

Simple yet modern designs in trendy colours. Designed and manufactured by Guocera that appeal to the market as a whole.

INTERIOR DESIGN THEME

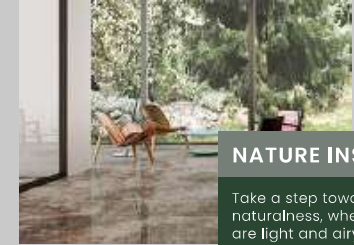

STYLISH LUXURY

The design style adds a touch of class to every home, from classical, art-décor to sleek understated elegance of today.

NATURE INSPIRED

Take a step towards naturalness, where spaces are light and airy.

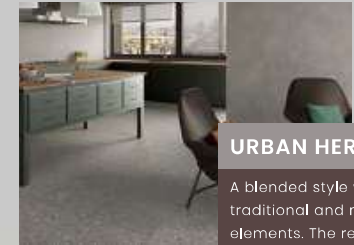

MODERN SCANDI

A refined simplicity meets comfort and functionality

URBAN HERITAGE

A blended style with traditional and modern elements. The retro and mid-century modern pieces never go out of style.

CRAFTED DESIGN

SPECIAL PIECES

Beyond and electrifying range of design styles, colours and textures, the INMAGINE Special cuts collections offers wider possibilities to add texture and detail for a more sophisticated space.

ORIGIN OF MATERIAL

Intensive research and observation led us to admire the imperfect beauty of origin of materials of stones, marbles and terrazo stones. "Special attention to fine details such as textures, colour nuances and gradients"

TECH TILE

Superior Diamond Surface for technical porcelain, characterised by its excellent resistance to scratch, anti-slip and easy maintenance. Perfect for outdoor and high traffic applications.

CRYSTALIZED VEINS

"Crystalized veins" are the special effects created to imitate nature's feature of a crystalized minerals and sparkling look in veins found in most marbles or natural stones. A soft or deep wispy shiny veins of natural effects in tiles.

TECHNICAL SPECIFICATIONS

VERTICAS

VERTICAS Large Slabs are produced according to the specification of MS ISO 13006 (Annex G) - Group Bla

DIMENSIONS AND SURFACE QUALITY

Description	Test Method	MS ISO 13006 (Annex G) Requirements	VERTICAS Test Results
 Length and Width	ISO 10545-2	± 0.6% (max ± 2.0mm)	± 2.0mm
 Thickness	ISO 10545-2	± 5.0% (max ± 0.5mm)	± 0.4mm
 Straightness of Sides	ISO 10545-2	± 0.5% (max ± 1.5mm)	± 1.5mm
 Rectangularity	ISO 10545-2	± 0.5% (max ± 2.0mm)	± 2.0mm
 Surface Curvature	ISO 10545-2	± 0.5% (max ± 2.0mm)	± 2.0mm
 Surface Quality	ISO 10545-2	A minimum of 95% of the slabs free from visible defects which can impair the appearance of a major area of slabs	Comply

PHYSICAL PROPERTIES

Description	Test Method	MS ISO 13006 (Annex G) Requirements	VERTICAS Test Results
 Water Absorption	ISO 10545-3	≤ 0.5%	≤ 0.1%
 Breaking Strength	ISO 10545-4	≥ 1300N	≥ 1500N
 Modulus of Rupture	ISO 10545-4	≥ 35N/mm ²	≥ 40N/mm ²
 Abrasive Resistance	ISO 10545-7	Depending on glaze type and series	Min. PEI Class 3
 Craze Resistance	ISO 10545-11	No sign of crazing	Pass

CHEMICAL PROPERTIES

Description	Test Method	MS ISO 13006 (Annex G) Requirements	VERTICAS Test Results
 Resistance to household chemicals	ISO 10545-13	Min. Class GB	Class GA
 Stain Resistance	ISO 10545-14	Min. Class 3	Min. Class 3

TECHNICAL SPECIFICATIONS

GUOCERA

Guocera Glazed Porcelain Tiles are produced according to the specification of MS ISO 13006 (Annex G)

DIMENSIONS AND SURFACE QUALITY

Description	MS ISO 13006 (Annex G) (Bla)
 Length and Width	± 0.6% (max ± 2.0mm)
 Thickness	± 5.0% (max ± 0.5mm)
 Straightness of Sides Rectangularity	± 0.5% (max ± 1.5mm) ± 0.5% (max ± 2.0mm)
 Surface Flatness	- Centre Curvature - Edge Curvature - Warpage
 Surface Quality	A minimum of 95% of the tiles free from visible defects which can impair the appearance of a major area of tiles

PHYSICAL PROPERTIES

Description	MS ISO 13006 (Annex G) (Bla)
 Water Absorption	≤ 0.5%
 Breaking Strength - Thickness ≥ 7.5mm	≥ 1300N
 Modulus of Rupture (MOR)	≥ 35N/mm ²
 Abrasive Resistance (PEI)	Depending on glaze type and series
 Frost Resistance	Passed (where frost exist)
 Craze Resistance	No sign of crazing

CHEMICAL PROPERTIES

Description	MS ISO 13006 (Annex G) (Bla)
 Resistance to household chemicals & Swimming pool saits	Min. Class GB
 Stain Resistance - Glazed Tiles	Min. Class 3

INSTALLATIONGUIDE

Handling and storage

Tiles should always be checked upon delivery. Ensure that the specifications are as ordered.

If supplied in batches, the shades and sizes should be checked prior to installation to avoid mixing during installation.

Pallet of tiles should be stored in a proper covered and dry area and on a firm and level ground.

It is recommended to do a 'dry lay' before tiling to check and confirm the specified quality of the supplied tiles.

Fixing of the tiles

Porcelain tiles with its low water absorption should be fixed with a C2 adhesive to achieve an effective and long-lasting bond.

The use of cement-sand mortar, either wholly or partially mixed with adhesive may affect the bonding of the installed tiles and is therefore not recommended.

Instructions on adhesive application and installation procedures should be strictly followed to get the best results.

The substrate receiving the tiles should be free of loose particles, grease, old paints, etc, for the adhesive system to perform effectively.

Tiling work should be carried out in accordance to Code Of Practice for the Installation of Ceramic Tiles.

The adhesive should be applied on the substrate using a trowel with the correct notch size (at least 10 mm for large format tiles) to get a good contact distribution of the adhesive.

Coverage of the adhesive coat to the tile back should be maximized by back buttering on the tiles with a scratch coat.

The recommended installation gap for large format size of tiles should not be less than 3 mm.

Tile installations with butt-joints or insufficient gaps may be susceptible to post-installation failure risks. A minimum installation gap of 5mm is recommended in areas exposed to direct sunlight.

As an industrial guide, expansion joints should be incorporated as follows:

- Internal installations: every 5 to 10 m.
 - External installations: every 3 to 5 m.
- Parameter joints should be incorporated for all installations.

To prevent the effect of lippage on installed tiles, the following are recommended:

- (i) Installing the tiles following the same directional orientation of the tiles.
- (ii) Use of levelling system to even out the tiles during tiling (Fig. 1)
- (iii) Use a running bond offset of 85:15 pattern for large format rectangular tiles with a joint width of minimum 4 mm (Fig. 2).

Fig.1

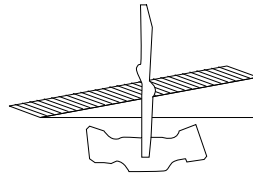

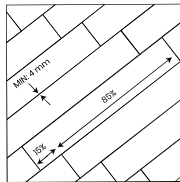

Fig. 2

Recommended laying pattern

Avoid 50:50 offset pattern

CLEANING AFTER LAYING

A good initial cleaning should be done on completion of the tiling work. To remove the cement and grout residue, a cement/grout cleaner should be used.

For installations with epoxy or resin grouts, a suitable epoxy cleaner should be used.

Protection

Tiling work should be protected from moisture (if exposed) for at least two weeks until the bedding and joints have set and hardened.

Completed floor tiling should not be subjected to any traffic for at least four days.

Light pedestrian traffic should be allowed after four days but heavier traffic should only be permitted after 14 days.

The completed flooring should be protected using appropriate breathable sheets or kraft paper to prevent staining and damages. Plastic sheets may not be suitable for this purpose as it may induce sweating (condensation) and discoloration by restricting the grout and bedding material to dry properly. Covering of the floor should be done when the floor is completely dried. Plywood sheets should be used if heavy loads are to be moved on the tiled floor.

Cleaning and maintenance

Many general-purpose cleaners that are readily available are acceptable for use on tiles.

It is also important that the tile receives a thorough rinsing with clean water after the cleaning process has been completed.

On large commercial floors where buffing machine are used, the correct choice of cleaning pad is important to ensure delicate tile surfaces like polished tiles are not damaged.

The frequency and timing of any maintenance regime is dependent on the specific characteristics of each tile application. Factors such as traffic, environmental conditions, surface texture of the tiles and product type should be considered when planning the schedule of the maintenance.

Cleaning guide

Category	Type of stain:	Cleaning recommendation
CEMENTITIOUS MATERIAL	Cement/grout residue	Acidic Cleaner
FOOD	Beer, wine, coffee stains, soy sauce, ketchup, coffee, tea, food colouring	Alkaline Cleaner
OIL & GREASE	Food oil, engine oil	Alkaline Cleaner
INK & PAINT	Marker ink, paints, latex	Alkaline Cleaner or Solvents, eg. Thinner, Turpentine
OTHERS	Rubber, footwear stain	Alkaline Cleaner
	Metal, rust stain	Acidic Cleaner
