TECHNICAL SPECIFICATIONS

Solare Porcelain Tiles

Solare Porcelain Tile are produced according to the specification of MS ISO 13006

DESCRIPTION		MS ISO 13006 (Annex G) (Group B)
		RECTIFIED
	Length and Width	±0.3% (±1.0mm)
	Straightness of Sides	±0.3% (±0.8mm)
	Rectangularity	±0.3% (±1.5mm)
	Surface Flatness	±0.4% (±1.8mm) ±0.4% (±1.8mm) ±0.4% (±1.8mm)
	Thickness	±5.0% (±0.5mm)
	Surface Quality	A minimum of 95% of the tiles free from visible defects which can impair the appearance of a major area of tiles
	Water Absorption	≤ 0.5%
	Breaking Strength - Thickness ≥ 7.5mm	≥ 1300N
	Modulus of Rupture (MOR)	≥ 35N/mm ²
	Abrasive Resistance (PEI)	*Depending on glaze type and series
	Frost Resistance	Required (where frost exist)
	Crazing Resistance - Glazed Tiles	No sign of crazing
	Resistance to household chemicals & swimming pool salts	Minimum Class B
	Stain Resistance - Glazed Tiles	Minimum Class 3

*Please contact our sale representative for detail information of each product or colours, and the suitability for intended floor.

**For tiles installation guide, refer to Guocera website.

COLOUR SHADE VARIATION GUIDE

V1	V2	V3	V4
			
Uniform Appearance Differences among pieces from the same production run are minimal.	Slight Variation Slight variations in shade, design, and texture are noticeable	Moderate Variation Colour, design, texture and overall appearance of tiles may vary significantly among pieces of tiles.	Substantial Variation There is substantial and random variation in shade and texture among the pieces of tiles

Note: Prior to confirming your purchase, please ensure that you have accepted the full faces of the tile design

NOTE:

- Please be aware that the colours of the tiles shown on a computer, tablet, or phone may not be an accurate representation of the actual colour of the tiles.
- Please note that the colour and design of the tiles may vary depending on the section of the tile from which they are cut. For an accurate representation of the tile design, we recommend requesting full faces of the tile prior to confirming your purchase.
- Please note that slight variations in size and shade are a natural part of the ceramic tile manufacturing process. All tiles are packed into cartons that are clearly marked in compliance with applicable manufacturing standards.
- We highly recommend performing a dry lay with several cartons of tiles to assess the extent of shade variation and design, especially for tiles with high variation levels (V3 and V4), prior to installation. This will ensure that you accept the tiles before installation, as they cannot be exchanged or returned once they are installed.
- Please note that we reserve the right to modify the colour range or specifications of our tiles and discontinue the production of certain items at any time without prior notice.
